About me

I am a highly experienced full stack developer with over 15 years in the industry. I am passionate about team work, software architecture, S.O.L.I.D principles, good coding practices and patterns. I am a firm believer in "think twice, code once" and always strive to deliver solutions that are both effective and efficient. I am always seeking to develop new skills and push my limits

---

Tech stack

Strong : HTML/CSS, JavaScript, React, NodeJS, Docker, Software Architecture, S.O.L.I.D principles, Design Patterns, Clean Code.

Proficient : NGINX, Linux Server, MySQL, MongoDB, AWS , TypeScript, NestJS

Novice : Jenkins, Redis

Languages

	Level
Spanish	Native
English	B2
French	A1

Education

Bachelor of Education in Computer Science

Experience (only the last 4)

(NOTE : Many of the project I'd worked are properties of my formers employers and they don't want to publish information on then, hence I won't describe any detail that can compromise this.)
